

THE POWER OF WORDS

Have you ever spoken something out of your mouth that you wish you never had said?

Life and death are in the power of the tongue.
Proverbs 18:21

Whatever you talk about the most is what you build your faith in.

Out of the abundance of your heart your mouth will speak.

Your words decide your future.

Do you know that what you are today is what you said you were yesterday? And believing what others have said?

Anytime somebody has your ear they influence you.

How much have you been influenced by listening to the wrong voices?

Words create pictures in your mind. Those pictures help your self- image.

Self-image is your self-portrait; it's your mental image of you. It's the way you see yourself.

Self-esteem refers to our personal evaluation or opinion of our worth, competence and importance.

When does your self-image begin? The minute the doctor gives you to your mother the brush starts painting on the canvas of your mind. How? With words spoken over you.

Three areas that shape who you are:

1. Appearance
2. Performance
3. Importance

Jesus never told people who they were not. He always told them who they could be. He speaks words of boldness, confidence, admiration, courage, respect, esteem and most of all Love.
